

Offering Memorandum

Exto Exchange

is a digital asset exchange which is offering maximum security and advanced trading features. With your help, Exto will build a world class crypto exchange which will power the future of crypto finance.

Let's take a look at some of the major problems which

crypto exchanges suffer from :

- Poor technical architecture.
- Insecure platform.
- Poor market liquidity.
- Poor customer service.
- Poor multilanguage support.

What makes Exto exchange unique?

- Fast matching engine.
- Zero trading fees with exto pairs.
 - Multilingual Support
 - Circuit Breaker.
 - Decentralized (on-chain) exchange.
- Exto will support trading pairs in the following coins:
 - BTC
 - ETH
 - EXTO (Exto Coin)

More coins will be added over a period of time.

Revenue model :

Revenue for Exto will come from a multiple sources which are as follows :

- * Initially, Exto will charge a fixed fees on non exto trade.
- * A smaller withdrawal fees.
- * Listing fees.
- * Margin fees.
- * Fees for services like automated algorithms etc.

Supply of Exto tokens and it's allocations :

A strict limit of 200 million EXT0 will be created, which will never be increased.
EXT0 will run natively on the Ethereum blockchain with ERC 20.

Allocation :

40%	which accounts to be	(80,000,000)	for the Trading Volume Reward(TVR)
40%	which accounts to be	(80,000,000)	for the founder team.
10%	which accounts to be	(20,000,000)	will be available for the initial sale.
10%	which accounts to be	(20,000,000)	will be for Angel investors.

Please note that VTR is a volume trading reward which is indeed a community building program.

Reward Allocation :

YEAR	YEARLY	DAILY
1 st year	26666666	73059
2 nd year	13333333	36529
3 rd year	13333333	36529
4 th year	13333333	36529
5 th year	13333333	36529

Ext0 road map :

- * On 15th Dec'2018 was confirmed for the start.
- * On 5th jan'2019, Initial draft of the white paper was completed and circulated to potential angel investors.
- * On 15th jan'2019, Announcement for Ext0 VTR plan was done and whitepaper was released to general public.
- * On 1st feb'2019 VTR plan starts. (platforms to be announced soon)
- * On 15th Aug'2019, Ext0.exchange release v0.1 and goes live. Also, the active trading begins.
- * On 15th Aug'2024, VTR finishes, or whenever the coins are sold out.

You can use

EXT0 to pay for any fees :

on our platform, including but not limited to:

- Exchange fees
- Withdraw fees
- Listing fees etc.

In the near future Exto will build a decentralized exchange, where Exto will be used as a key base assets as well as gas for the transactions. After Exto use as fess it will be burn.

Let us now take a look at the risks involved and also the security measures to overcome it :

Our Team

It is crypto base enthuses community. We are hiring the best and experienced persons in our team and hence making it a formidable and an invincible team.

Risks

There are many risks involved in running an exchange. We understand this and have the skills, experience, and leadership to overcome them. As said earlier a strong team and an advanced security helps to overcome all the barriers.

Market Competition

We know this is an ultra competitive space. There are probably hundreds of teams planning or doing exchanges. Competition will be fierce. The question is fairly simple, Given our team, track record, experience, industry resources, and product, Do you believe we stand a better chance than the rest of the pack? If yes, Then do join our VTR plan and witness the history in making. This is an opportunity of a lifetime to become a part of the worlds largest trading community and earn the maximum benefits at the earliest stage. We are marching towards our goal of 50k community members, that too all guns blazing. Join us and begin your journey towards fulfilling your dreams!
